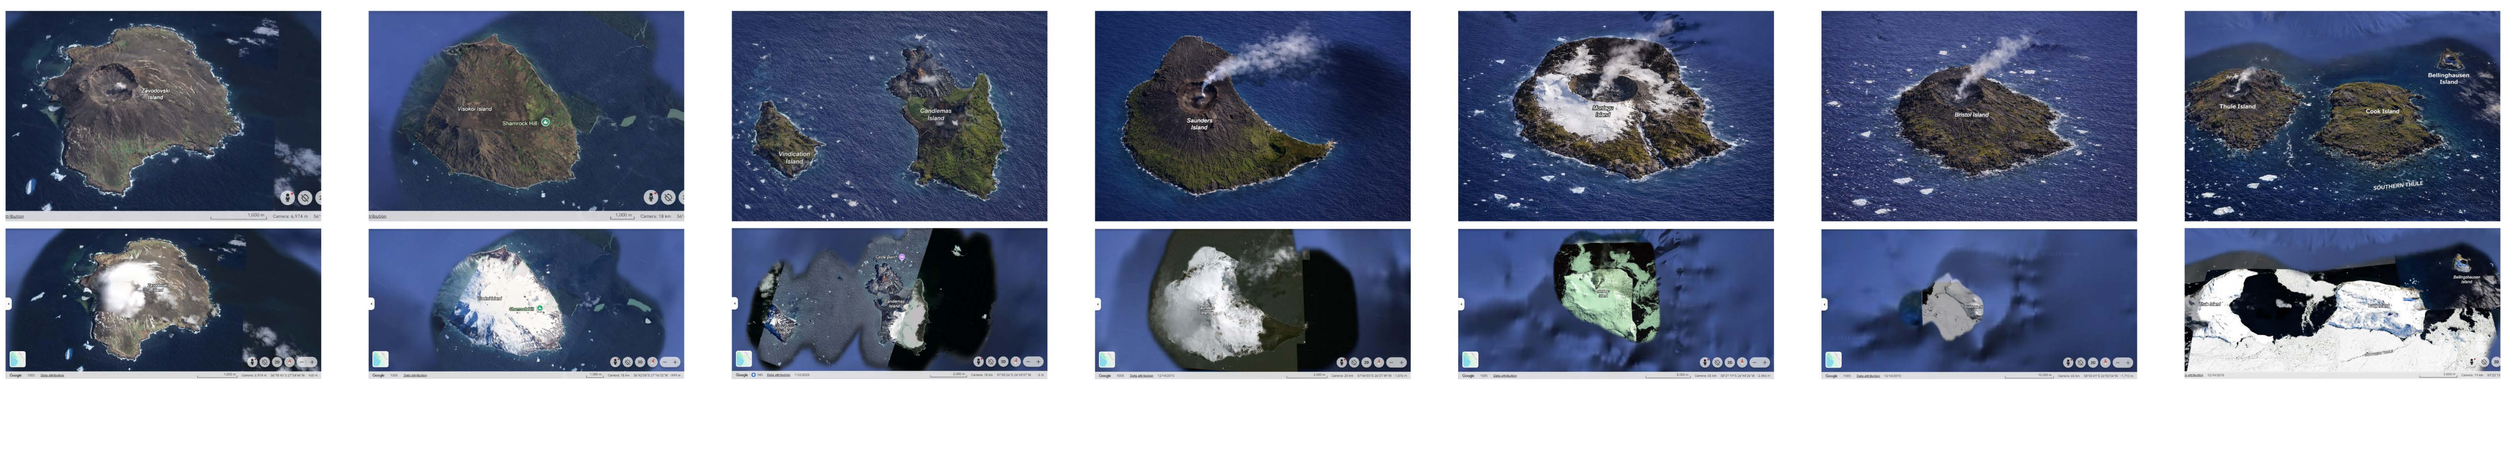
DRAKES (DRACO) PASS

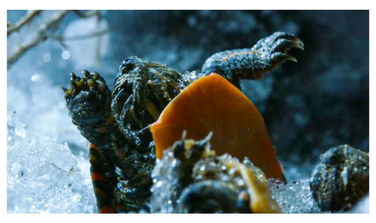


Draco
is a Latin word meaning "dragon," and it refers to a northern circumpolar constellation in the sky that resembles a dragon.

Biology:
In biology, Draco refers to a genus of gliding lizards

Etymology Origin:
The term "Draco" comes from Latin, meaning "dragon" or "serpent." It is derived from the Greek word "drakon," which also means "dragon."

Frozen wood frog survives the winter in alaska



Hibernating Turtles in the Arctic Circle Slowly Defrost Back to Life As Spring Melts the Ice

"Dormancy is not death; cold is a phase, not an end."

Shenlong (simplified Chinese: 神龙; traditional Chinese: 神龍; pinyin: shén lóng, literally "god dragon" or "divine dragon", Japanese: 神龍 Shinryū) is the spirit dragon from Chinese mythology who is the dragon god of the tempest and also a master of rain.

He is of equal significance to other creatures such as Tianlong the celestial dragon, Zhulong the dragon of eruption, Qinglong the azure dragon, and Yinglong the responsive dragon.

Apophis (/əˈpɒfɪs/; from Ancient Greek: Ἄποφις, romanized: Ápophis), also known as Apep (Ancient Egyptian: ꜥ3pp) or Aphoph (/əˈfɒf/, Coptic: Ⲁϕⲱϕ, romanized: Aphōph).[1]

The Old Narrative

is the ancient Egyptian deity of the underworld who embodied darkness and disorder, and was thus the opponent of light and Maat (order/truth). Ra was the bringer of light and hence the biggest opposer of Apophis.

we are restored

Dracos Pass - Closure

During the New Kingdom,
The rewriting and obscuration of truth,
this cycle was reinterpreted. Apep was pushed permanently
below the horizon, assigned to the underworld, and
reframed as "pure evil."

His many locations—Duat, Manu, before dawn—were simplified
into imprisonment. This shift replaced balance with
suppression.

The correction is this:
Ra, Apep, and Set are one operating system. Later theology fractured
the cycle into enemies. Restoration means returning to circulation,
not stasis.

Love is the first and last law.
